

## Chapter Territory Map

The ALS Association Central & Southern Ohio Chapter serves residents in 55 counties in the lower two-thirds of the state. People with ALS are assigned to one of five Care Service Coordinators who provide case management, consultations and evaluations, referrals, support groups, and loans of durable medical equipment and communication devices. They collaborate with patients' neurologists and clinicians at hospital-based multidisciplinary ALS clinics. The Chapter also provides a monthly newsletter, a lending library, children's resources, and other informational and educational materials and resources. All services are provided free of charge.
